JOSE ANTONIO MENDOZA SANCHEZ

Contact Information
Email: jose.mendozas@pucp.edu.pe
Phone: (+51) 970 568 197
Personal website: https://josemendozas.github.io/me.html

Economist and researcher specializing in development, with over five years of applied experience in the design of surveys, indicator systems, and monitoring & evaluation of rural development, agricultural sustainability, and financial inclusion programmes. I have collaborated directly with international organizations (Gates Foundation via COSA, UNDP, USAID, Oxfam) and Peruvian state institutions (INEI), producing technical evidence for donor-facing decisions and public policy. I have peer-reviewed publications in indexed journals (Nature Portfolio, PLOS ONE) and an active teaching role in research methods and applied statistics.

ACADEMIC BACKGROUND

Master's Degree in Economics, specialization in Development Economics 2024
Pontificia Universidad Católica del Perú
Bachelor's Degree in Economics 2018
Pontificia Universidad Católica del Perú

RESEARCH EXPERIENCE

Associate Researcher 2022–
Committee on Sustainability Assessment, COSA (USA)
Lead the design and supervision of agricultural sustainability surveys and monitoring systems in multi-country programmes funded by the Bill & Melinda Gates Foundation (via *ADAIM — Agile Data Approaches for Innovation and Monitoring*), the International Coffee Organization (ICO), JNP Coffee, and other international donors. Country coverage across Africa (Burundi, Côte d'Ivoire, Rwanda, Ethiopia, Malawi, Sudan), Asia (India), and Latin America (Mexico, Honduras). Data collection with SurveyCTO and KoBoToolbox.

- **Endline evaluation — Burundi coffee resilience programme** (COSA / JNP Coffee, Gates Foundation). Co-author of the endline study covering three provinces and six Coffee Washing Stations; triangulation of AgileAg App real-time data, in-person survey, and administrative records; manuscript submitted to *Food Policy* (2026).
- **Cocoa programme performance report — Côte d'Ivoire** (COSA / Gates Foundation, FarmerLink). Delivered the final analytical report combining farmer-app data, in-person survey, and cooperative administrative records; validated production, income, inputs, and labour indicators for donor and cooperative partners.
- **Coffee cost-of-production studies — Mexico and Rwanda** (COSA for the International Coffee Organization, ICO *Transparency at Origin* initiative). Designed survey instruments and sampling frames, led in-person enumerator training in Kigali (Rwanda) and coordinated fieldwork in Mexico. Research Assistant on the *Mexico Coffee Value Chain* report and contributor to the *Rwanda Coffee Value Chain* report (COSA / ICO, 2025).
- **Sustain Africa baseline study — Malawi** (COSA / AFAP, Gates Foundation). Contributed to baseline analysis and reporting for farmer resilience programmes across coffee, maize, and other value chains.
- **EUDR compliance and cost-of-production studies — Honduras** (COSA with cooperative partners RCG, Honducafé, COCAOL). Drafted the analytical reports on producer traceability, geolocation, and EU-regulation compliance readiness for the coffee sector.
- **Cotton sustainability programme — India** (COSA in Karnataka and Telangana). Coordinated field operations and quality assurance of yield, income, and gender-disaggregated indicators. Contributor to *Agile Data: Cotton in India* (COSA, 2025).
- **Food-security monitoring — Sudan** (COSA / AGILE). Consolidated and quality-assured indicators across a longitudinal micro and meso survey system for real-time programme tracking.
- **Methodology and indicator design.** Contribute to COSA's methodological work: survey design, sampling strategies, indicator harmonization across contexts, and **gender-sensitive disaggregation** applied systematically to all programmes.

Researcher 2020–2024
Instituto de Estudios Peruanos, IEP
Applied research on financial inclusion, taxation, gender, and migration in Peru and Latin America. Co-authored the book *Reformas en los márgenes* (IEP, 2023). Research on labour and employment outcomes for internal and international migrants in Latin America under the Southern Voice project on COVID-19 and mobility. Extensive work with national household and administrative databases (ENAHO, SBS, SISFOH, INEI).

Researcher 2023
Pontificia Universidad Católica del Perú (PUCP) — Q Lab
Researcher on the *Scaling-up off-grid sanitation* project funded by UK Research and Innovation (UKRI): multi-country evaluation of off-grid sanitation options in marginalized areas of **Peru, South Africa, and Kenya**. This work produced the peer-reviewed publications in *PLOS ONE* (2026) and *Humanities and Social Sciences Communications* / Nature Portfolio (2025) listed below.

Researcher Apr 2022–Dec 2023
Instituto Nacional de Estadística e Informática, INEI
Data analyst at INEI's Directorate of National Accounts. Developed and documented the **Composite Leading Indicator for Peru's economy** (INEI, 2022), and the associated *Proposal for a Composite Sustainability Indicator System for Peru.* Also served as technical evaluator for INEI's competitive research programme.

CONSULTING EXPERIENCE

Oxfam
Co-authored the study *Mujeres en tiempos de transición energética: Aproximación a los costos de salud de la exposición a metales pesados y metaloides y del trabajo de cuidados* (2025), on the health costs of heavy-metal exposure and unpaid care work among women in Peruvian extractive contexts. Designed the analytical strategy and processed environmental and household-health microdata for national-level policy advocacy. Co-authored the analysis of the research report *Poder para pocos, desigualdad para muchos. ENADES 2026* (2026), on power concentration, tolerance of inequality and democracy in Peru.

United Nations Development Programme (UNDP)
Statistical analyst on multiple UNDP projects in Peru and Latin America:

- Statistical consultant on the *Informe Local Voluntario de Lima 2021* (SDG Voluntary Local Review for Lima Metropolitan Area, published on the UN SDG portal), including simulations of SDG target trajectories.
- Data analyst on the SDG Corporate Tracker (2023), a UNDP–Global Reporting Initiative (GRI) initiative measuring corporate contributions to the SDGs in Peru.
- Studies on the impact of COVID-19 on mobility restrictions and mortality in Peru and Brazil, and on domestic violence dynamics (published in *Review of Development Economics*).

USAID
Co-authored the evaluation of public-procurement integrity in Peruvian regional governments using an experimental vignette design (working paper, IEP, 2024; English version submitted to a peer-reviewed journal).

INDUSTRY EXPERIENCE

Senior Quantitative Researcher — Consumer Innovation Lab (Latin America) 2023–
Lead quantitative research within an innovation lab serving business units in banking, insurance, retail, and education for one of Latin America's largest consumer-facing groups.

- **Experimental design and choice modelling:** conjoint analysis (CBC, ACBC, MaxDiff), discrete choice experiments, and vignette designs to inform product, pricing, and service decisions.
- **Survey design and consumer research:** instrument design, sampling, and deployment across online, in-app, and WhatsApp-based channels; longitudinal diary studies and digital ethnography for consumer insight.
- **AI-assisted research workflows:** integration of large language models and automation (n8n, custom pipelines) into survey coding, transcription, qualitative coding, and analytical synthesis.
- **Interactive dashboards and applications** (Streamlit, R Shiny, Power BI) delivering findings to non-technical stakeholders and decision-makers.
- **Design-thinking collaboration:** contribute the quantitative-evidence layer to multidisciplinary teams from discovery through prototyping.

TEACHING EXPERIENCE

Lecturer – Pontificia Universidad Católica del Perú (PUCP) 2024–2026

- History of Economic Thought
- Research Seminar for Economists
- Seminar on Qualitative Research Methods in Economics
- Undergraduate Thesis Advisor

Lecturer – Universidad Nacional Mayor de San Marcos (UNMSM) 2024

- Applied Statistics for Social Sciences

Teaching Assistant – Pontificia Universidad Católica del Perú (PUCP) 2016–2024

METHODOLOGICAL EXPERTISE

- **Evaluation design:** baseline / midline / endline studies, results frameworks, and indicator matrices at output, outcome, and impact levels.
- **Survey design and fieldwork:** instrument design (household, farmer, community), sampling frames (probability and purposive), enumerator training in multilingual and low-connectivity contexts.
- **Applied econometrics:** difference-in-differences, event studies, vignette experiments, composite indicator construction and validation.
- **Data collection tools:** SurveyCTO, KoBoToolbox; back-check and audit-trail protocols.
- **Gender-sensitive analysis:** systematic disaggregation of indicators by gender, age, and ethnic group across all programmes.

TECHNICAL SKILLS (SOFTWARE)

Stata, R, Python, SurveyCTO, KoBoToolbox, LaTeX, SPSS, EViews, Microsoft Office.

RESEARCH GRANTS

Principal Investigator, "Narrow Sanctions, Broad Consequences in Peru: Enforcement Spillovers to Municipal Fee-Setting in Peru" (with A. Cozzubo and P. Fernández-Dávila). Inter-American Development Bank (IDB) Research Network, call *The Impacts of Regulation in Latin America and the Caribbean* (RG-K1198). USD 25,000. 2026.

PEER-REVIEWED PUBLICATIONS

Mendoza Sanchez, J. "Banking agents and private remittances in rural Peru". *Economics Bulletin*, forthcoming (accepted October 2026).
